WORK EXPERIENCE

Full Scale PH

Cebu City, Cebu

Developer

- Contributed to the development of scalable full-stack solutions, assisting in the creation and enhancement of applications to meet diverse client needs.
- Project 1: E-Commerce Shop**
 - Solely responsible for both frontend and backend development tasks, including UI design, responsive development, and payment gateway integration.
 - Engineered backend infrastructure for product management, user accounts, and transactions, streamlining business operations.
 - Tools: ReactJS, Typescript, Vite, .NET, SQL, Git, GitLab, Trello, Agile, Figma
- Project 2: Custom Advertising Solutions**
 - Cooperated with a team of 6 developer, 1 QA specialist and 1 project manager in crafting custom advertising solutions for service-based companies, enhancing their operational efficiency.
 - Introduced account grouping and integrated dynamic service images to enhance user engagement.
 - Tools: Vue.JS, Typescript, .NET, SQL, Git, GitHub, Jira, Agile, Figma
- Project 3: Electronic Health Record Platform**
 - Enhanced MDS, clinical/point-of-care modules, billing, and QIS features to improve care delivery for healthcare providers.
 - Teamed up with third-party service providers and end-users to integrate services and ensure the system met specifications and individual care configuration requirements.
 - Tools: Java, JavaScript, Typescript, Agile

Freelance

Cebu City, Cebu

UI/UX Designer

- Worked independently with clients and stakeholders to design intuitive, user-friendly interfaces and enhance user experiences for web and mobile applications.
- Led the end-to-end design process, from research and wireframing to prototyping and final implementation.
- Tools: Figma, Photoshop

Full Scale (Gigabook, Inc.)

Cebu City, Cebu
